Welcome

**Instruction Manual** - Congratulations on purchasing the ZAGG Folio Keyboard. The following will show you how to get started with your Folio. Keep this quick start guide for future reference and for a full instruction manual, please visit [zagg.to/instructions](http://zagg.to/instructions).

Getting Started

- 1 Insert/Remove** - Insert your tablet into the ZAGG Folio case starting at the bottom. You may need to apply a light pressure to seat it in the bottom of the case. Press the top of your tablet into the top of the case. Check the corners to ensure your tablet is seated properly. To remove your tablet, press outward from the back top of the case. Grasp the exposed side of your tablet and lift/pull away from the cover.
- 2 Power On/Off** - Press the Power button to turn your Folio on. A green LED will light briefly. Press and hold the Power button for three seconds to turn your Folio off. A red LED will flash indicating it has turned off.
- 3 Pair It** - Ensure your tablet's Bluetooth® settings are on, then press and hold the Folio's Bluetooth button for three seconds. A blue LED under the Power button will flash until pairing is complete. Select "ZAGG Folio" from your tablet's list of available devices to complete pairing.

Additional Functions

- Keyboard Shortcuts** - Your Folio keyboard features all of the special function keys you're used to that help you work and play. Here's a few of the most useful functions. For a complete list of function keys and a full instruction manual, see [zagg.to/instructions](http://zagg.to/instructions).
- Menu** - Opens your tablet's menu.
  - Home** - Opens your tablet's home screen.
  - Return** - Returns to your last open program/app.
  - Lock** - Turns your tablet's sleep mode on and off.
  - Internet** - Press fn + to open your tablet's default internet browser.
  - Battery** - Press fn + to check remaining battery level. Three green flashes indicate full battery. Three yellow flashes indicate low battery. Three red flashes indicate critically low battery.
  - Backlights** - Press fn + to activate your Folio's backlight feature. Press repeatedly to cycle through brightness levels and then turn the backlights off.
  - Change Colors** - Press fn + repeatedly to cycle through the seven backlight colors.
