RE: FCC ID: QTKRM-123_ATCB003323
Attention: Ole H. Sørensen

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. FYI. Please note that the max EIRP reported in the EMC report is 32.8dBm and the max EIRP reported in the SAR report is 32.5dB. Please note that when there is a difference in power levels, the SAR report should always be the higher value. Please make sure that subsequent applications follow this FCC requirement.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
