RE: FCC ID: QTKRM-240_ATCB005303
Attention: Ole Soerensen

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the internal photos appear to show a film or paper over the first photo. Please remove the film or paper and show the underlying circuitry. Alternately, please explain why the film or paper cannot be removed.
2. Please note that while the 15B report shows test data with the BT in transmit mode and with the device in receive mode, I do not find any data with the device transferring information between the computer and the device over the USB cable. In order to certify the device to 15B, this data will have to be provided. Please either provide the test data or show where it is in the 15B report.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
