RE: FCC ID: QTKRM-268_ATCB004400
Attention: Daniela Stenhof

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the short term confidentiality letter states that test setup photos, external photos and internal photos are to be short term confidential. Please note that the SAR report page 4 shows the external photo of the device. Please also note that page 11 of the SAR report also shows the test setup of the device. Please extract these photos and provide a separate setup photo exhibit. Please remember to remove them from the SAR report. If the SAR report is not revised to extract these photos and place them in a separate exhibit for setup photos for SAR, the external photos and setup photos of the SAR report will not be confidential.
2. Please note that the FCC ID number on the label sample is not readable. Please provide a label sample where the FCC ID number can be clearly identified.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
