

FCC ID: QTX85293810033

Circuit Description

The 27.00MHz crystal oscillator drives the base of Q8 the final/buffer amplifier. The modulation provided by IC. The output of Q8 has the matching network consisting of L4 and C6 that limit the harmonic content and effect the proper coupling of the antenna to the output stage.

Antenna, Ground and Power Source

The antenna consists of a 33cm long metal antenna. There is no external ground connection. The ground is only that of the printed circuit board. Electric current is supplied by a 3 Volt ("AA" size battery x 2) primary battery
