### **Introduction:**

The game tablet offers all the innovation of Android operation system for games, browsing and applications. Lightweight, tactile and ultra-connected, this device is the answer to all your mobility needs.

On a 7 inch touch screen evolving under Android 4.0, access internet using Wi-Fi and customized your games and applications through Android market.

This device is a game station for all your Android 3D games for mobility and on TV.

This device is a transportable audio/video center that can play movies and music in HD.

### **Main features:**

- 1.Video format: support 1080P(1920\*1080) full HD decoder
- 2.Game format: support PC grade H3D (HD real 3D), internet multiplayer games, Support Adobe flash version 10.3 and support online games.
- 3.HD camera: DC, DV function, support internet video calling and chatting.
- 4.Built-in full HDMI 1080P output.
- 5.HD color TFT 7 inch display 1024\*600 with crystal bright colors
- 6.Full 5-touch capacitive screen built-in for perfectly support of various games and application touch screen + button +360 degree joy stick +sensor overall contain all kinds of games and applications.
- 7.Support WIFI wireless internet, quickly open the webpage, support online games, video chatting, online TV and online video. Adopt top ARM-Cortex A8

kernel and now most advanced supposed type degree flow line. The speed of 1.2GHz dominant frequency is 15-10 times that of ARM9/11

8.Low power consumption

9.Powerful Mali400 GPU 3D graphics card built in with 2.0 GPU, supports a large scale of 3D games. RAM Memory is 1GB.

10.Support: USB-OTG, USB keyboard, support USB mouse and is plug and play.

11.Built-in android 4.0 Operating System, support internet marvelous quantity android utility software, dictionary E-book read PPTV electronics dictionary European common market stocks software etc, user can download mass internet applications.

### **Basic feature list**

1)Video: full formats support, 1080 P1920\*1080 pixel decode and RM/RMVB,

2)Support PPS, online TV and films,

3)Support flash player 10,X

4) Voice: full formats decode, multi-task play, enjoy music, read book and play games at the same time, multichannel output.

4)Camera

5)Photo function

6)DV function

7)Picture browsing

8)E-book (Adobe reader), PDF read function and iReader

9)Perpetual calendar

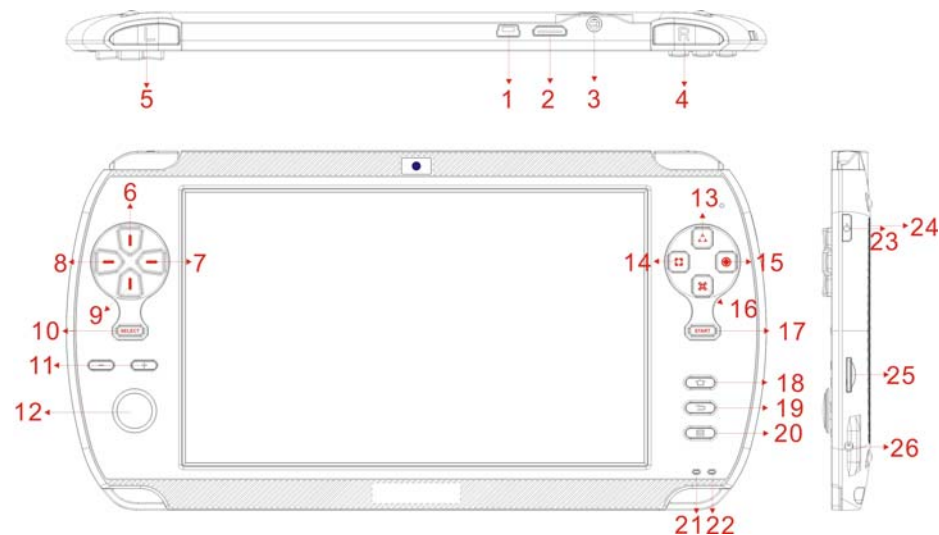

10)Calculator

11)IE Quickly open any website to see news, office applications, read online download support, webpage flash display.

12)E-mail, Office work support mail to send and receive, Word & Excel software open.

**13)**Support multiple input method and handwriting input. Support (video) chatting

## Product overview

- 1)USB/OTG/HOST connector:Plug USB device for external USB expanding, browsing and data copy.
- 2)HDMI TV output interface: Connect though HDMI cable for TV display
