Simple to use
Guide the cursor naturally
of the wrist. No exaggeration.

Chang~~e~~g~~e~~ slides from anywhere in the room, without pointing at the screen or the computer.

freespace® In-Air Pointing. Patented motion control technology makes cursor navigation intuitive, precise, and stable from any position.

Step away from the podium and engage your audience with more powerful presentations. The Scoop allows you to move without slide controls. Without the need to touch the computer, you can move the mouse with your hands, and move the presentation with your feet. The Scoop also doubles as a lean-back device for muscle, moves and games for relaxing at home or in the hotel.

The perfect presentation controller

wireless presenter

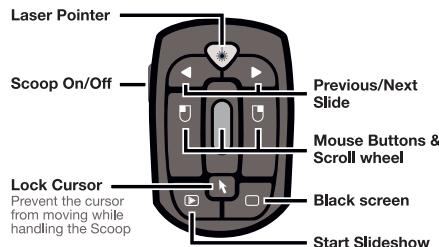

BACK COVER

SCOOP™

wireless presenter

Setup

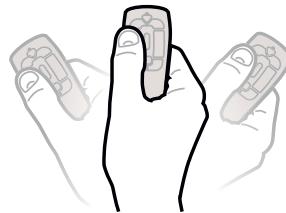

- 1 Install batteries into the Scoop wireless presenter.
- 2 Plug the USB receiver into your computer.
- 3 Wait for your computer to recognize the Scoop. There are no special drivers to install.

Special Tip

You don't have to point at the screen

Freespace® technology allows you to hold the Scoop in the position that is the most comfortable for you. Small wrist movements give you better control over the cursor than using your whole arm.

Warranty

Hillcrest Laboratories, Inc. warrants this product, excluding batteries, to be free from malfunctions and defects in both materials and workmanship for 90 days from the date of purchase. Retain the original dated sales receipt. Proof of purchase is required for warranty repair. If this product is found to be defective within the warranty period, Hillcrest Labs will either repair or replace the product.

This warranty does not cover circumstances beyond the control of Hillcrest Labs. We make no other express or implied warranty for this product. Some states or jurisdictions do not allow exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you. Some states or jurisdictions do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. This warranty gives you specific rights, and you may have other rights which vary from state to state or by jurisdiction.

FCC Compliance

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed or used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: 1) reorient or relocate the receiving antenna; 2) increase the separation between the equipment and receiver; 3) connect the equipment into an outlet on a circuit different from that to which the receiver is connected; 4) consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Canadian (IC) Compliance

This Class B digital device has been tested and found compliant to Canadian standards ICES-003 and RSS-210.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CE Mark

This digital device has been tested and found compliant to the European R&TE Directive 1999/5/EC
