RE: FCC for Shopguard Systems Limited

Please find attached with this letter the revised block diagram as well as the new FCC warning label.

Material for Label: It will be permanent Mylar type plastic label. Non-erasable.

Manual: Our dealers follow a training course and then refer to the manual I sent you. For training they have other documentation that is separate from the submitted manual.

A handwritten signature in black ink. The signature appears to read "Jacques Paradis". The "Q" is a simple loop, the "a" is a small circle, and the "P" is a large, stylized loop.

Best regards,  
Jacques Paradis  
Vice-President of Marketing
