WARRANTY

Electronics limited warranty (not including Memphis accessories). When purchased from an authorized Memphis dealer, Memphis warrants its products to be free from defects in material and workmanship under normal use for a period of ONE (1) YEAR from date of original purchase (except required, THREE (3) YEARS for products installed by an authorized Memphis dealer, receipt required). If this product is identified as "Refurbished" or "Good", the warranty is limited to a period of THREE (3) MONTHS from date of original purchase. In the case you must have the original receipt, Show service is necessary under this warranty for any reason due to manufacturing defect or malfunction during the warranty period, Memphis will repair or replace (at its discretion) the defective merchandise with equivalent merchandise. Warranty replacements may have cosmetic scratches or anomalies. Discontinued products may be replaced with current equivalent products. Warranty is valid only for the original purchaser and is not extended to owners of the product subsequent to the original purchaser. Any applicable implied warranties are limited in duration to a period of the express warranty as provided herein beginning with the date of the original purchase at retail, and no warranties, whether express or implied, shall apply to the product thereafter. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and the receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

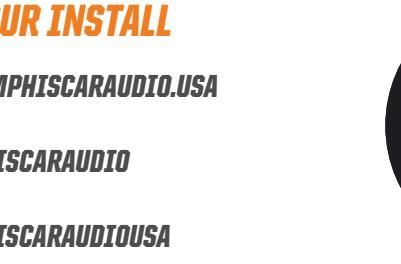

Warning: Changes or modifications to this unit not expressly approved by the party responsible for Compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set for an uncontrolled environment. This equipment should be installed and operated within a minimum distance 20cm between the radiator and your body.
