Subject: FCC Class III Permissive change for FCC ID: QWP-45700

Applicant: Cambium Networks Ltd

Dear Examiner,

This is to request a Class III permissive change for FCC ID: QWP-45700.

The change filed under this application is:

The addition of Part 15E UNII-2A (5.25 – 5.35 GHz) and UNII-2C (5.47 – 5.725 GHz) to the product SDR grant.

Cambium Networks confirm that the same hardware revision of RF unit has been used in both the original submission and in this permissive change request.

Software versions approved in the Original QWP-45700 Grant and this Class III Permissive change are listed below.

Software Version used for Part 15.247 test: -

- B062-MACDSP-G7FED

Software Version used for Part 90Y test: -

- B075-MACDSP-G7FED

Software Version used for Part 15E UNII-1 band test: -

- B105-MACDSP-G7FED

Software Version used for Part 15E UNII-2A and UNII-2C band test: -

- B105-MACDSP-G7FED
- B141-MACDSP-G7FED, DFS Test

We state that there has been no change to the original Software, Distribution and Security Documentation to support this submission. As per the requirements of KDB 442812 §IV, phn-4158 PTP 700 U-NII Security Guide (Response to KDB 594280 D02) which was supplied with the UNII-1 band C3PC to support the addition of the Part 15E UNII bands has been updated to reflect KDB 594280 D02 U-NII Device Security v01r03.

Sincerely yours,

Donald W Reid
