Ref: FCC Class III Permissive change for FCC ID: QWP-50650

Applicant: as above

Dear Examiner,

This is a request for a Class III permissive change to FCC ID: QWP-50650.

The change filed under this application is:

The addition of Part 15E, operating in the 5250 – 5350 MHz and 5470 – 5725 MHz frequency bands, to the original SDR application which covered compliance with Part 15C.

Cambium Networks confirm that the same hardware revision of RF unit has been used in both the original submission and in this permissive change request; the only change applied to demonstrate compliance with Part 15E was a software upgrade.

An updated User Guide, RF Performance and DFS test reports are supplied on support of this request.

Sincerely yours,

A handwritten signature in black ink that reads "Donald W Reid".
