

Product Description

Microprocessor	MA60H092Z
Radio transmission	no directional, from mouse to computer only
Number of channels	2
Carrier frequencies	27.045MHz / 27.095MHz
Modulation:	FSK
Transmission range	over 1.5m typical, free space
Mouse Operating Current:	$\leq 15\text{MA}$
Standby Current:	$\leq 0.1\text{MA}$
Antenna:	inductive loop antenna, integrated on printed circuit board.
Battery:	alkaline, 2xAAA
Resolution:	400 DPI
Micro switch:	chock-per:1,000,000 cycles.
Number of button/wheel:	3 button, 1 wheel
Running life:	3 years
