

- **Establish wireless connection**

With the wireless LAN connection to the vehicle, it is possible to transmit vehicle data to your smartphone. To enable this:

1. Turn on the vehicle ignition.
2. Activate the wireless LAN of your smartphone.
3. Select your car from the list of wireless devices (My_Porsche_xxxxxx).
4. Enter the password: **GTxVehicleIdentificationNumber**.
5. Check the successful connection.

Porsche Track Precision app

USA:

Canada:

This device complies with Part 15 of the FCC Rules (and with Industry Canada licence-exempt RSS standard(s)).

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications made to this equipment not expressly approved by Porsche may void the FCC authorization to operate this equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Information

Radiofrequency radiation exposure: The radiated output power of the device is far below the FCC radio frequency exposure limits. Nevertheless, the device shall be used in such a manner that the potential for human contact during normal operation is minimized.

The Porsche Track Precision app can be used to connect to the vehicle via a wireless local network (WLAN). This enables driving data to be displayed, recorded and analysed directly on a smartphone. Detailed information on installation and the functions of the Porsche Track Precision app is available directly in the app and at www.porsche.com or from your authorized Porsche dealer.

DANGER

Loss of control over the vehicle

Driving at excessive speeds and risky manoeuvres may lead to loss of control over the vehicle.

- ▷ Adapt your driving style and maneuvers to your personal ability, the road and weather conditions, as well as the traffic situation.
- ▷ Only use the Porsche Track Precision app on closed circuits away from public roads.

DANGER Setting and operating when driving

Use of the app while driving can distract your attention from the road. You may lose control of the vehicle.

- ▷ Carry out operating and setting procedures only whilst the vehicle is stationary.

Information

Since vehicle-specific data can be accessed using the Porsche Track Precision app, it is recommended to protect this data from unauthorized access by third parties.
