

1 Description of Changes in Permissive Change Request

1.1 FW

Three of the five originally filed modes have been disabled using FW changes only:

Filing	EA Mode			NGC Mode		
	35.55 kbps	142.22 kbps	50 kbps	150 kbps	200 kbps	
Original	YES	YES	YES	YES	YES	YES
Permissive Change	YES	YES	NO	NO	NO	NO

1.2 HW

- A series antenna-matching component (radiated path only) was changed from 0Ω to 3 pF, C71.
- A series 0Ω in the power supply circuit was changed to a ferrite bead, FB7.
- A ferrite bead was added to pin J1A:10, FB6.
- A nylon standoff was added to support the antenna element, and holes added to the antenna and PCB to captive the standoff.
