**Permanent Confidentiality Request**

**FCC ID:** QZC-NXCMR200

To whom it may concern,

Pursuant to sections 0.457(d) and 0.459 of CFR 47, and KDB 726920, Elster Solutions, LLC hereby requests permanent confidential treatment of information accompanying this application as outlined below:

- Schematics
- Bill of Materials/Parts List
- Block Diagram
- Theory of Operation

The Model NXCMR200 contains trade secrets and proprietary information not customarily released to the public. The public disclosure of these matters might be harmful to Elster Solutions and provide unjustified benefits to its competitors.

Since this design is a basis from which future technological products will evolve, Elster Solutions also feels that this information would be of benefit to its competitors, and that the disclosure of the information in these exhibits would give our competitors an unfair advantage in the market.

We are aware that exhibit types cover letters, attestations, label document, test reports, RF exposure information (SAR and MPE reports), cannot be requested to be classified confidential and are thus subject to publication, as will be documents of all other exhibits types for which we have not requested a confidentiality classification.

We appreciate your assistance in this matter.

Respectfully,

Charles Greene  
Advanced Wireless/RF Engineer
