Re: Licensed modular transmitter approval

Applicant: Hoseo Telnet Co., Ltd.

FCC ID: R2SATM200

To whom it may concern,

As requested in licensed modular transmitter approval, the following information has been addressed.
The connections available on the module are for power and data inputs only. Below please find information, addressing each paragraph

1. The final device is designed for mobile or fixed operation only.
2. The maximum antenna gain to allow compliance with RF exposure requirements is listed on the Grant of Certification for the module.
3. The licensed module must have a FCC ID label on the module itself, That FCC ID label must be visible through a window on the final device or it must be visible when an access panel when an access panel, door or cover is easily removed. If not, a second label must be placed on the outside of the final device that contains the following text:

Contains " FCC ID: R2SATM200
