RE: Rikaline International Corporation

FCC ID: RE3-60330011

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Kindly supply both top and bottom views of all printed wiring boards inside the device. It appears that only the top views have been supplied.
- 2.) Please provide an actual sample of the label for this device as supplied by the manufacturer. "Generic" labels under current FCC interpretations are no longer permitted. In addition, the FCC has disallowed labels to be placed on access or battery covers. All labeling should be permanent. As an example, if a battery cover is lost the device should continue to be properly labeled with its FCC ID.

William H. Graff  
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
