

**Answer to Q6 listed on ATCB's comments for R5ITT-136**

**Q6:** This system appears to use standard N connectors for the antennas. To meet the requirements of 15.203 using a standard connector, this device will be limited to Professional Installation only. If this device will only be professionally installed, this requires a cover letter justifying professional installation to be provided. The letter should address the following 3 items:

**a) Marketing**

**example:** The device cannot be sold retail, to the general public or by mail order. It must be sold to dealers or have strict marketing control.

**b) Requires professional installation**

**examples:**

- installation must be controlled.
- installed by licensed professionals ( EUT sold to dealer who hire installers)
- installation requires special training ( special programming, access to keypad, field strength measurements made) What is unique, sophisticated, complex, or specialized about your equipment which **REQUIRES** it to be installed by a professional installer?

**c) Application**

**example:**

- The intended use is generally not for the general public. It is generally for industry

**A6: This device is limited to Professional Installation only. The device is not intended to be used in the general public. The device will not be sold retail to the general public or by mail order. It is only sold to dealers and has strict marketing control. This device shall be installed by licensed professionals.**
