

Date: Apr. 18, 2013

To Whom it may concern,

I would like to clarify the operating frequency range and intended operating purpose for below equipment:

Model Name: FM1200V-HW

FCC ID: R5S-FV

Product Name: WiFi AP

The operating frequency range of this equipment is only possible within the range of 5150—5250 MHz; however, in order to comply with the relevant FCC requirement (Part 15.407), when the 5150—5250 MHz is used for this equipment, this equipment should installed in the indoor, and this information will be described on the user manual.

Regards,

Signature
