Power	Built-in a Mini-B USB port for power through and charge iPod by attached USB retraceable car charger
Volume control	Built-in volume buttons to adjust the volume up and down
Bluetooth Specification	V2.0, supporting A2DP, AVRCP
Output Power Class	Class 2
Security	Pairing code: 0000, 1234, 8888
Transmit Power Consumption	40mA

### Operation Processes :

- Attach the connector end of BT transmitter to iPod at the data port.
- Around 20 seconds of authorization process while plugging into iPhone/iPod
- Pair with a Bluetooth receiver (Speaker set, headset or other music players) :
  - A. Keep the transmitter and Bluetooth unit you intent to pair with in a short distance.
  - B. Press Play button of iPod to implement the automatic pairing work. While the transmitting end is searching a receiving source nearby, the LED indicator on the transmitter will flicker. Following this, you will hear one short "BEEP" sound from the paired unit and the pairing work is done.
  - C. After pairing work is completed, you can hear the music from iPod. Meanwhile, the blue LED Indicator will flash regularly and slowly.
  - D. If you want to pause music, simply press Pause button on iPod.
  - E. In case pairing procedure fails at first time, please wait for a few seconds to re-start the pairing procedure.
  - F. If you would like to cancel the pairing work, simply remove this device from iPod dock port.
- If BT dongle searches No any target device exceeding 2 minutes, dongle will turn off automatically for power save(LED will stop flash), but just press the play button on iPod again when you want to pair again.
- LED Indicator
  - Apple IC Authorization process: LED lights permanent and flashes for 20 seconds around
  - Searching the target device : Very fast flash
  - Connect with iPod : Fast flash
  - Connected with target device : Slow flash

## FCC statement in User's Manual (for class B)

### "Federal Communications Commission (FCC) Statement

This Equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:

1. The device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
  - (1) This device may not cause harmful interference, and
  - (2) this device must accept any interference received, including interference that may cause undesired operation.
2. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.
3. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.
