Dear Sir or Madam:

We, Onglory Rich Limited, hereby ensure that our product as below:

(Product name: Mobile phone, FCC ID: R6DTL700)

The RF chipset RF3232 is GSM PA, does not support EDGE. Though the main chip MT6573 support Class 12, EDGE, and WCDMA band I, VI, VIII and X, but the External hardware does not support these functions, and also the RF3232 support WCDMA band I/HSPA, GSM850, PCS1900. As the WCDMA band I can not be used in the US, so our manufacture will close this function by software.

Sincerely,
