Re: FCC ID: R7PEG1R1S2

To Whom It May Concern:

The following application is submitted on behalf of our client, Cellnet Technology Inc., for evaluation of their model Gridstream RF Enhanced Integrated Focus AX for certification under FCC Part 15.247.

The Gridstream RF Enhanced Integrated Focus AX is a composite device which contains (2) transceivers. These include (1) frequency hopping 900 MHz radio and (1) 2.4 GHz Zigbee radios each of which was evaluated separately to the corresponding rules and found to be in compliance.

Both radios can transmit simultaneously therefore the device was also evaluated for radiated inter-modulation products and found to be in compliance.

Sincerely,
