Re: FCC ID: R7PNG0R1S4

To Whom It May Concern:

The following application is submitted on behalf of our client, Landis+Gyr Technology, Inc., for evaluation of their model Series-6 RF Mesh mSBR Card for a C2PC certification under FCC Part 15.247.

C2PC to add new modes of operation and 2 new antennas to the 900 MHz radios only.

I have reviewed the application and supporting documentation and have found them to comply with FCC requirements. I recommend this application for certification.

Yours sincerely
