Re: FCC ID: R7PNG0R1X8

To Whom It May Concern:

The following application is submitted on behalf of our client, Landis + Gyr Technology Inc., for evaluation of their model S6-MCM0 for a C2PC certification under FCC Part 15.247.

The purpose of the C2PC is to add a new dipole antenna to the pre-approved module.

I have reviewed the application and supporting documentation and have found them to comply with FCC requirements. I recommend this application for certification.

Yours sincerely
