

Proteus-e label information

The Proteus-e label has the size of 5x5mm. It contains the device name “Proteus-e”, parts of its article number “1201102400” and the serial number of the entity. The 1201102 is the HVIN. The label is placed on the shielding of the radio module.

Placement of the module label

The font size used, is 2.5pt and thus smaller than 4pt (~1.27mm). The CE logo, as well as FCCID and ISED do not fit to the label due to the small size. It is part of the user manual and part of the label of the packaging.

Placement of the packaging label

The label of the packaging contains:

FCC ID: R7T1201102

IC: 5136A-1201102

HVIN: 1201102
