

2. PRODUCT INFORMATION

2.1 Equipment Description

The tested model is DP-1300. Model DP-1*00 is same as model DP-1100 and DP-1200, DP-1300 for all electric and electronics components. The difference between models is only Memory Chip set equipment, model designation. The “*” in the designation model name may be 1 and 2, 3 denoting a Memory Chip set's equipment. DP-1100 equip 128MB Memory and DP-1200 equip 256MB Memory, DP-1300 equip 512MB Memory.

2.2 General Specification

Model	DP Serise
Supported Compression Formats	MP3(8.320kbps), ADPCM(32kbps), WMA
Internal Storage Capacity	128 / 256/ 512
Display	FSTN Type Graphic (128 *64) LCD (7 Color LED Back Light)
Supported Languages	36
User Interface Language	English
File Transfer Rate	Max. 2.4Mbps
Earphone Output	12mW(L) + 12mW(R)
Signal to Noise Ratio	85dB
Output Frequency Range	20Hz to 20kHz
Battery	AAA Battery 1EA
Playing Time	10hrs (MP3 Mode)
FM Frequency Range	87.5MHz to 108.0MHz
Dimensions / Weight	32(W) * 78(H) * 23(D)mm/48g (Including Battery)
