Re: Class II Permissive Change:

Gentlemen:

The purpose of the attached materials is for a Class II Permissive Change to the Millennial Net Gateway (FCC ID R8N-GW-5209). It is a low power communications device transmitter that operates in the range 902-928MHz. The following are the changes::

- 1) The addition of one new omni-directional whip antenna model:
 - a. Mobile Mark PSKN3-925RS
- 2) The lowering of the output power to compensate for the higher gain antenna.

Sincerely,

Josh LeBlanc
EMC Engineer
