FCC, ISC Identification Labels
FCC and ISC Identification
A single label will be used for both FCC and ISC (Industry Canada) identification numbers. The label is shown below.
Material: Polycarbonate
Adhesive: SCOTCH - 3M 486MP High Performance Adhesive.
Color: The actual label will be Black lettering on a White background. The diagram below shows the label.

The size is 2.50 inches by 0.75 inches. The thickness is 0.05 inch.

Millennial Net, Inc   Model: RT-5209Z1 **FCC ID: R8N-RT-5209Z1   IC: 5127A-RT-5209Z1** **This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept interference received, including interference that may cause undesired operation.**

FCC and ISC Identification Label Placement
Both identification labels are placed on the front of enclosure as indicated in the actual drawing in a separate PDF file.
