Product Name: DASDEC-II, Software Version 2.0-0

FCC ID (if applicable): R8VDASDEC-1EN

Product Category: EAS Encoder/Decoder

Product Description: *The DASDEC, Software Version 2.0-0 is an FCC-certified Emergency Alert System (EAS) encoder/decoder, which supports the EAS with the generation of alerts for broadcast radio and television operations, as well as emergency operations centers and other emergency management sites. Conformance to the following standards allows the DASDEC, Software Version 2.0-0 to receive digital messages through the Internet and other networks from local public safety operations centers and retransmit those messages in a timely manner:*

- *the Organization for the Advancement of Structured Information Standards (OASIS) Common Alerting Protocol (CAP) Version 1.2;*
- *OASIS CAP v. 1.2 USA IPAWS Profile Version 1.0; and*
- *CAP EAS Implementation Guide Version 1.02*

Installed Options: Software Version 2.0-0
