Do not reproduce any part of this instruction manual by any method without the approval by the company

- 我们可在不先通知的情况对该说明书的内容进行修改。

This instruction manual is subject to change without prior notice.

- 本说明书是精心编制而成，如果您感到某方面需要修改或有不清楚的地方，请与我公司联系。

This instruction manual is prepared with maximum possible care. Should you find any part requiring of modification or any part unexplained, Please contact Company.

- 本说明书应妥善保管，以备查阅。

Keep this manual properly for reference after the assembly is finished.

欢迎选用嘉乐比系列遥控玩具赛车，本产品是性能优越的比例遥控赛车，使用前请仔细阅读功能操作说明书。
Congratulations on your purchase of the Gallop radio control sports car! This is a high quality product and will provide excellent performance with normal care. Before using, please read these instructions carefully.

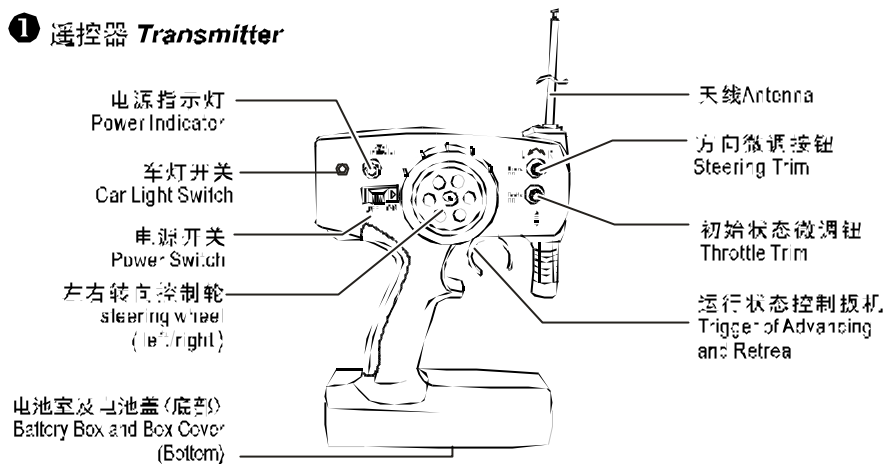

性能介绍 PERFORMANCE INTRODUCTION

1. C101 型电动遥控赛车功能齐全，行驶过程全比例遥控。
The function of C101 radio control sports car is complete, and can be proportionally controlled during the process of driving.
(1) 前进、后退实行无级调速，可随意地加、减速。
The speed can be changed while going forward or backward, and can be randomly accelerated or decelerated.
(2) 左、右转向实行全比例调控，可灵活、随意地调节赛车转弯角度，适合在任意弧度的弯道上行驶。
Turning left or right can be proportionally controlled, and the sport sily, which make it suitable for criving on any curve route.
2. 赛车轮胎选用优质天然橡胶制作，确保赛车能高速运行同时，具有良好的刹车性能和极强抗碰撞能力。
The tyre is made of nature and high cuality rubber, so that the car can be operated at a high speed while maintaining an excellent braking and anti-collision capability.

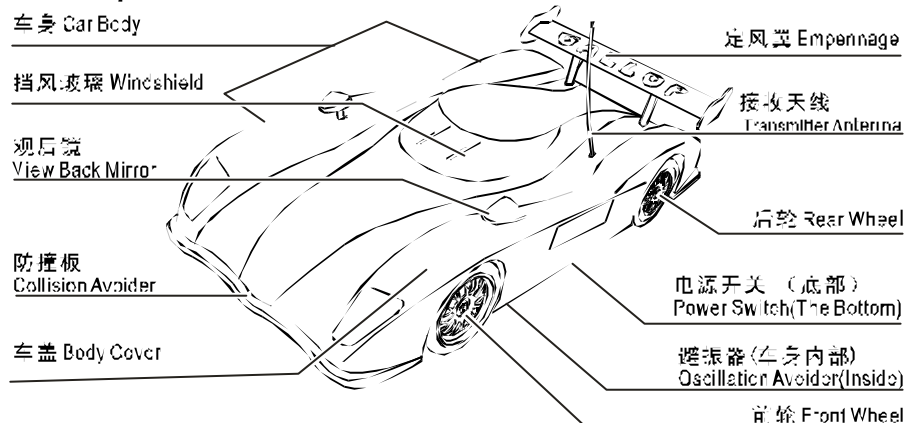

产品说明 PRODUCTION INTRODUCTION

① 遥控器 Transmitter

② 赛车 Sports Car

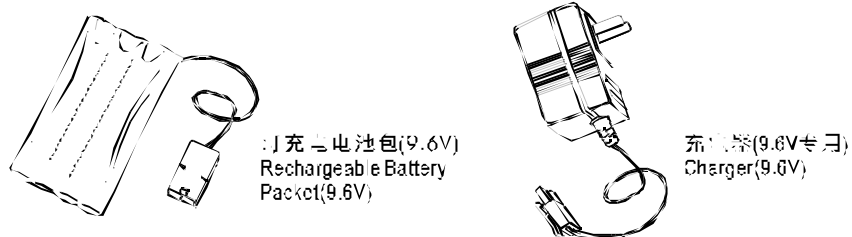

附件 ATTACHMENT

本产品配有附件，请在使用前检查，如有漏装，请及时与销售商联系：
There are attachments with this product, please check before using. If anything is missing, please immediately contact the supplier.

遥控器 Transmitter	:	✓
遥控器天线 Transmitter Antenna	:	✓
天线胶套管 Antenna Bushing	:	✓
充电器 Charger	:	✓
9V层叠电池 9V Terrace Battery	:	✓
9.6V充电池 9.6V Rechargeable Battery	:	✓
产品使用说明书 Product instruction	:	✓
警告 The warning	:	✓

③ 电池、充电器 Battery and Charger

主要技术参数 PRIMARY TECHNOLOGY PARAMETERS

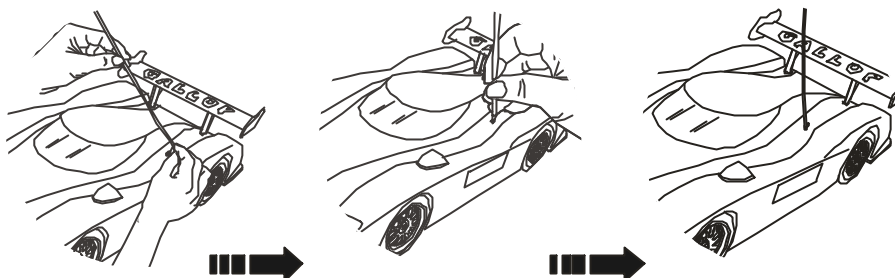

可选配遥控频率 Available RC Emissive Frequency	: 27MHz / 35MHz / 40MHz / 49MHz
遥控器电源电压 Transmitter Power Voltage	: 9 V
车电源电压 Car Power Voltage	: 9.6 V
车电池 Car Battery	: 800 mAh

操作说明 OPERATION INTRODUCTION

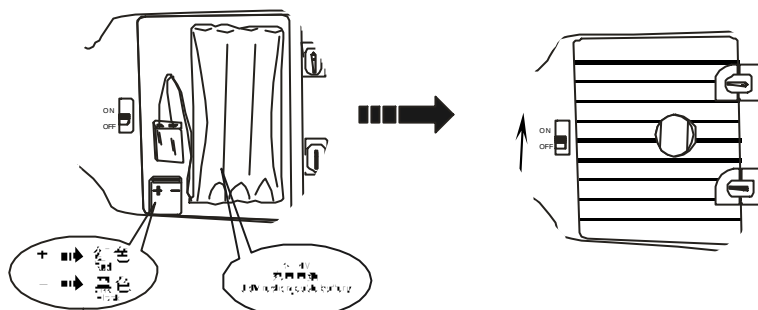

- ①** 将赛车天线穿入天线胶套管内，并把天线胶套插入赛车尾部左端的天线固定孔内。

Please insert the Antenna into the Bushing, and insert the Bushing into the fixing hole at the left bottom of the car.

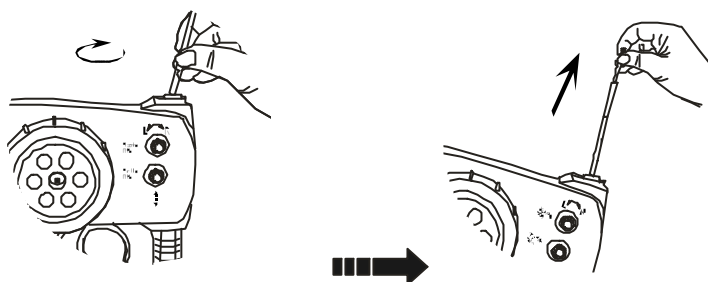

- ②** 将 9.6V 充电电池装入车内，并将电源开关拨至“ON”。

Put 9.6V rechargeable battery into sports car, and turn the power switch to "ON".

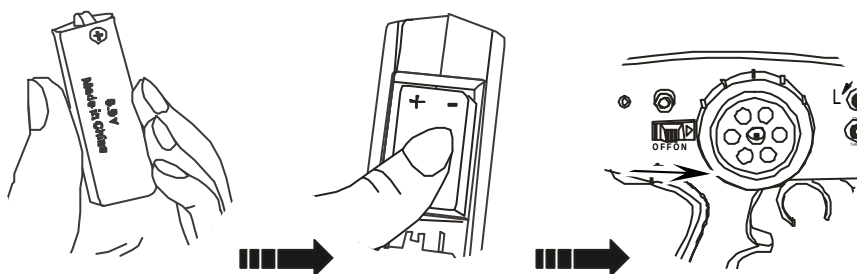

- ③** 将遥控器的拉杆天线安装在遥控器上，并全拉出。

Please install the antenna into the transmitter, and pull it out completely.

- ④** 将 9V 层叠电池装入遥控器，按遥控器电池箱内的指示符号(+)与(-)，正确地安装好电池，并将电源开关拨至“ON”。

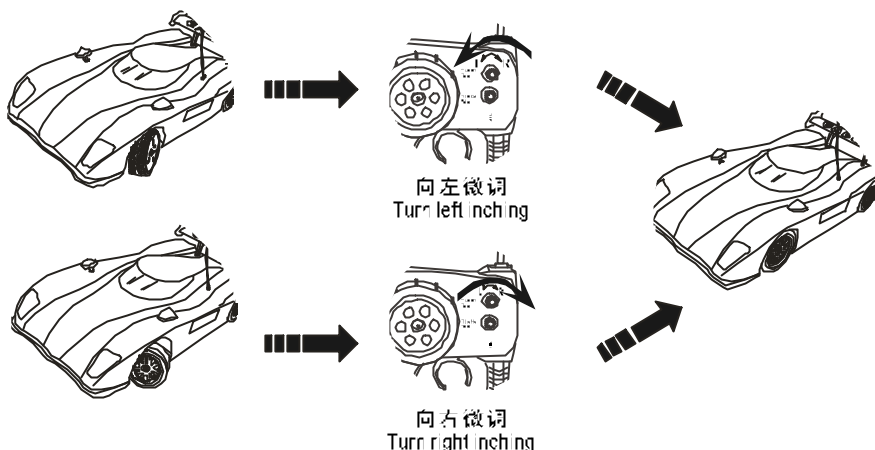

Put 9V terrace battery into transmitter, according to the indicators of "+" and "-", and turn the power switch to "ON".

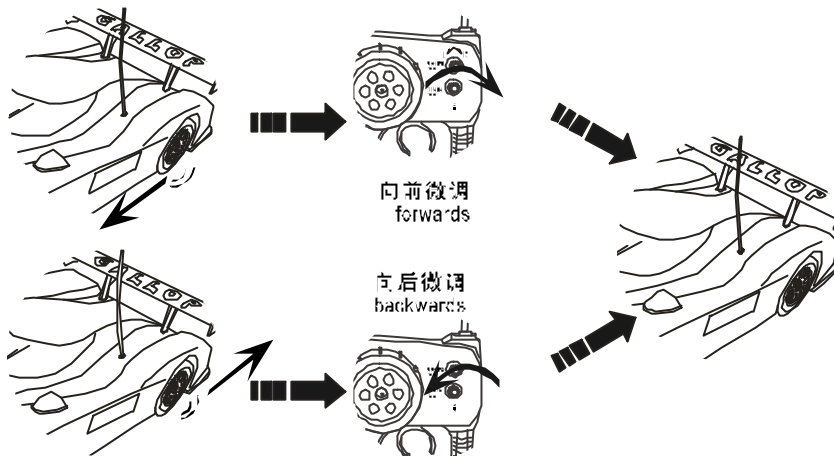

- ⑤ 观察赛车在静止状态下，车前轮的方向是否正对前方，若偏左或偏右，请旋转遥控器上的方向微调钮进行调整校正。向“L”方向旋则向左微调；向“R”方向旋则向右微调，确保赛车启动时，向正前方直线行驶。

Check the front wheels before play. If the wheels are not pointing forward, please continuously turn the Steering Trim on the Transmitter. Turn toward "L" for adjusting leftward, and turn toward "R" for adjusting rightward, so that the racing car will go straight and forward at the startup stage.

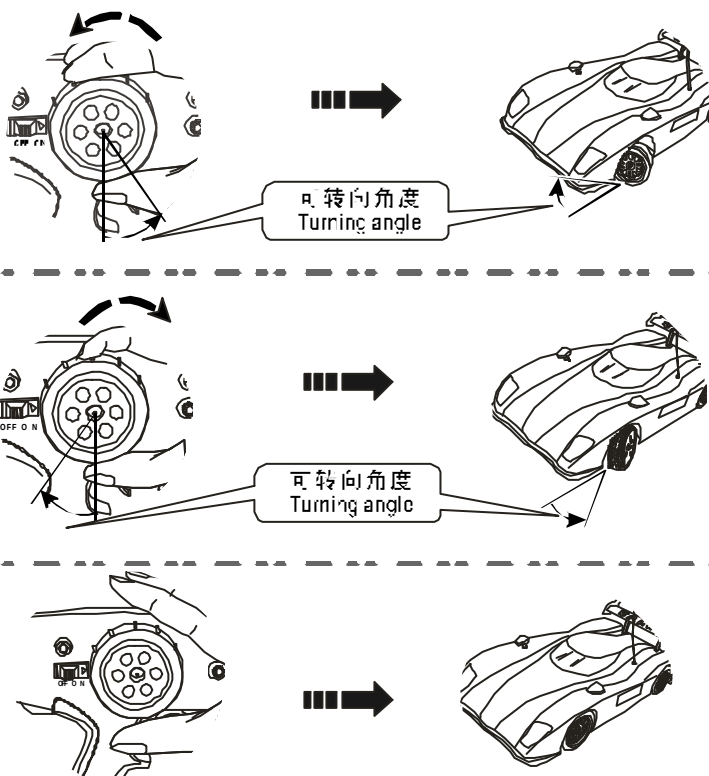

- ⑥ 观察赛车在静止状态下，车后轮是否处于静止状态。若向前转或向后转，请旋动遥控器上的状态微调钮进行调整校正。

Check the rear wheels before play. If the wheels are not pointing forward, please continuously turn the throttle Trim on the transmitter.

- ⑦ 通过转动遥控器的转向控制轮，控制赛车的运行方向。
Control the direction of the Sports Car by adjusting the steering wheel on the transmitter.

- 将转向控制轮向左转时，赛车将向左转弯。其转弯的角度，由遥控器转向控制轮转动的幅度控制。Sports car will turn left when the turning wheel is turned left. The left turning angel will be proportional to the amplitude of the steering wheel.
- 将转向控制轮向右转时，赛车将向右转弯。其转弯的角度，由遥控器转向控制轮转动的幅度控制。Sports car will turn right when the steering wheel is turned right. The right turning angel will be proportional to the amplitude of the turning wheel.
- 松开转向控制轮时，其将自动复原位，赛车的前轮自动回中。The steering wheel will go back to the original position when relaxed, and the front wheel will automatically reset.

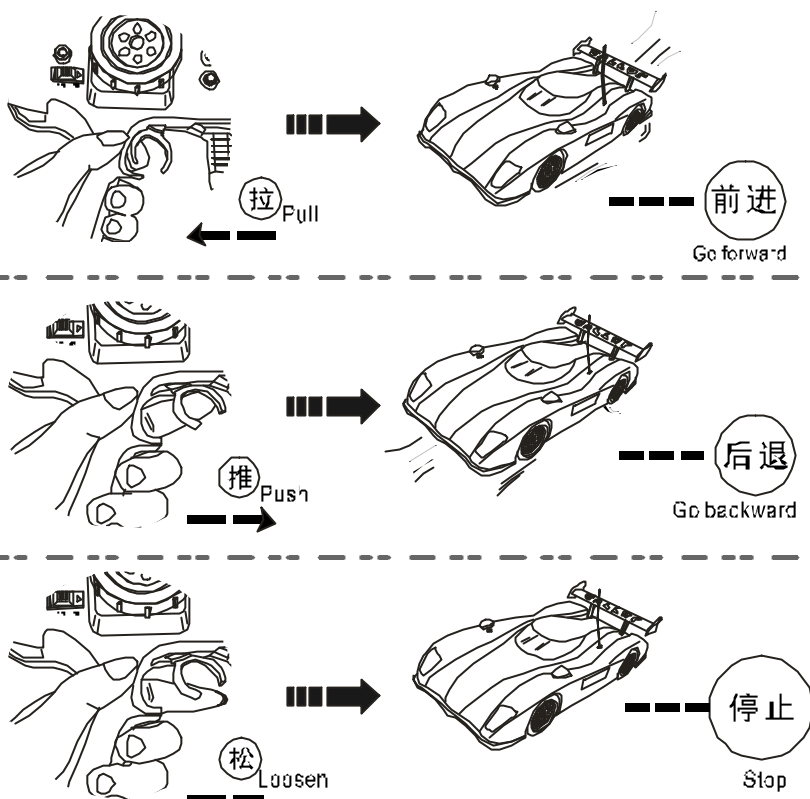

⑧ 通过扳动遥控器的扳机，控制赛车的前后运行状态。

Control the working status of car by the trigger on the transmitter.

• 向后扳动扳机，赛车向前进。扳机拨动幅度的大小，可控制赛车前进的速度。
Move the trigger backward, sports car will go forward. The speed is proportional to the amplitude of the trigger's movement.

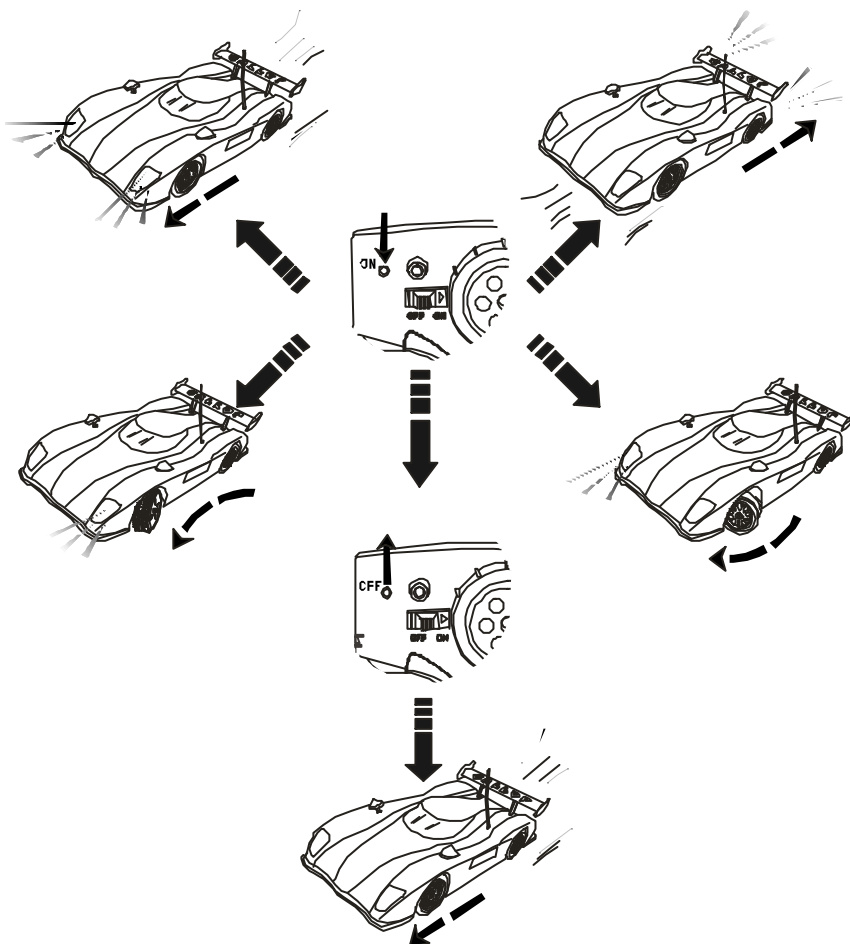

• 向前推扳机，赛车向后退。扳机前推幅度的大小，可控制车后退的速度。
Move the trigger forward, sports car will go backward. The speed is proportional to the amplitude of the trigger's movement.

• 当松开扳机时，扳机将自动复位至中，此时赛车将停止运行。
The trigger will go back to the original position when relaxed, and the Racing car will stop.

⑨ 按一下车灯开启开关，可开启车灯。前进时，前面两大灯闪亮；后退时，两后退灯闪亮；左右转向时，则左右转向指示灯闪亮。再按一下车灯开启开关，可关闭车灯。

Turn on sports car light by pressing indicator light switch on transmitter. The 2 front lights will flash when sports car goes ahead; the 2 rear lights will flash when sports car comes back; directional lights in the left/ right will flash when it turns left/right. Press indicator light switch again to turn off the lights.

电池充电操作 CHARGE

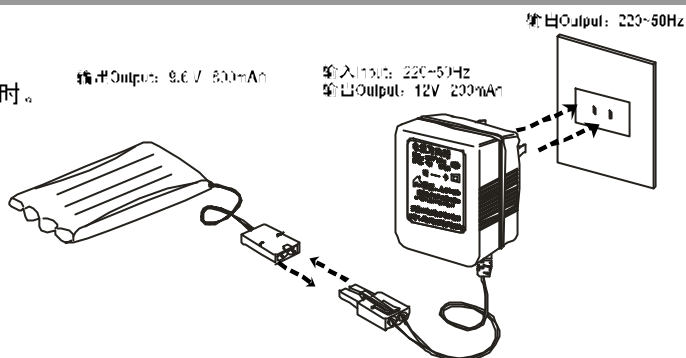

- ▶▶ 赛车的充电电池：请使用随车附送的充电器充电
充电器输入电压：AC~220V，50Hz。
新电池首次充电 15 小时。正常状态下充电时间为 4—5 小时。

Use the charger supplied with the car to charge the battery.

The input voltage of Charger: AC~220V, 50Hz.

The first charging of new battery should be 15 hours, and 4-5 hours under normal case.

- ▶▶ 充电时，请正确连接充电器与充电电池。
Please properly connect the charger with battery.

保养 MAINTENANCE

- ▶▶ 每次使用完后，将遥控器拉杆天线压进，关掉遥控电源开关，长时间不用，取出电池。
Push the antenna back, and turn off the transmitter power after each using. If unused for long time, take the battery out.
- ▶▶ 将赛车电源开关拨到 " OFF " 位，取出电池。
Turn the power switch to " OFF ", and take the battery out.
- ▶▶ 清洁时不要用水清洗，应用干净的软布擦拭。
Do not clean sports car with water, soft cloth should be used.

一般故障的处理 TROUBLESHOOTING

故障现象 Trouble	故障原因 Cause	处理措施 Measure
赛车不动 Sports car can not run	赛车电源不良 Power is abnormal	(1) 检查车及遥控器电源开关是否打开？若没有，请拨至 "ON"。 Check the switch of sports car and transmitter. Be sure that they are "ON". (2) 检查车及遥控器的电源电池是否有电？若没有电，请更换电池。 Check the battery of sports car and transmitter. If Battery is low, please change it. (3) 检查车及遥控器的电源电池安装的正负极是否正确？是否有接触不良的现象？若有请更正。 Check the batteries of sports car and transmitter. Be sure that batteries are installed correctly.
赛车的遥控距离近或遥控效果差 Car's working radius is short or controlling performance is poor.	遥控器电源不良 Controller power is abnormal	更换遥控器或赛车的电源电池。 Please change the battery of transmitter or car.
	赛车的天线胶套管脱落 The antenna bushing falls off	重新安好天线胶套管。 Fix the bushing back
赛车的速度慢 Sports car goes slow	赛车电池电力不足 The battery power of sports car is low	更换赛车电池。 Change for the new one
