

Guangdong OPPO Mobile Telecommunications Corp., Ltd.
NO.18 HaiBin Road, Wusha Village, Chang'an Town, DongGuan City, Guangdong
Province, P.R. China

Date: June 5, 2025

Product Equality Declaration

We, GUANGDONG OPPO MOBILE TELECOMMUNICATIONS CORP., LTD. declare on our sole responsibility for the product of FCC ID: R9C-OP24264 (variant model- Version 2) and FCC ID: R9C-OP24263 (Reference model -Version 1) as below:

The major feature difference between FCC ID: R9C-OP24264 (variant model- Version 2) and FCC ID: R9C-OP24263 (Reference model -Version 1) are:

1. The variant model adds ESIM. There are two SIM cards in one device usually, SIM2 share one group ISO with ESIM for adding the ESIM function. Different selection logic is used to shift enable between SIM2 and ESIM by one switch.
2. NFC Chip variance: The variant model is SN220p and The Reference model is THN31FGB1A.
3. The variant model does not support B13 frequency band of LTE Band, And this band uses software to turn off.
4. The variant model does not support WCDMA B6, LTE Band B66, And these two frequency bands are blank-posted on the motherboard.
5. The variant model uses software to turn off 5G NR in FCC-controlled areas by country code.

Note:

Except listings above, the others remain exactly the same.

Should you have any questions or comments regarding this matter, please have my best attention.

Sincerely yours,
