### 一. Use preparation

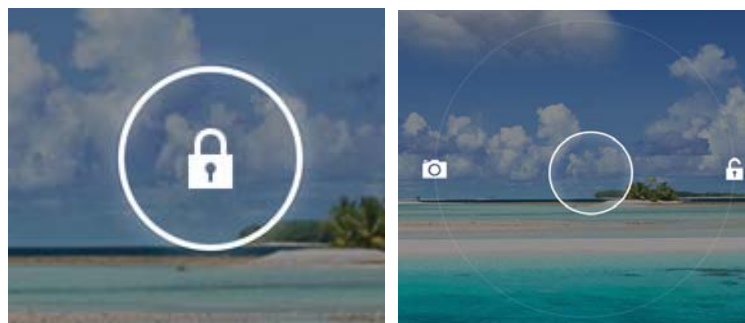

#### ● Connecting to your PC

Startup your PC, and connect the product to your PC with the provided USB Cable for USB charge or file transfer. The product will show connected and you can copy/delete files within the player through PC.

**Notice: Do not play music or video while connected with PC. Please be aware that we claim no responsibility for damage caused by this improper operation.**

#### ●Turn on

Under power on mode, long press "Power button" for 3 seconds, the system will enter android power-on status bar, and about 100s later enter the system menu, the screen is locked, hold  lock tap to drag up to the green point position, the device will unlock automatically, just as the following picture shows:

Connect the device with PC, the system will turn on the device automatically(it only supply power and don't charge).

**Power saving & screen-lock:** turn on the device and short press “POWER” button to enter SLEEP power saving mode, at this time, the screen become black screen, and also enter screen lock mode. Press “POWER” button again, the system resume bright screen within 1s.

Note:

Under power saving mode, the original operations such as music, video etc will not pause and will continuously work, it only clock the screen to be at the status of black screen.

**Note:**

When the system hangs up, press “power switch” button for 10s so that the device resume to turn off, and press “power switch” again, it will turn on.

#### ●Power off

Under the power-on status, long press “power button” for 3s, power-off menu will show, select “OK” to turn off the player.

**【Notice】**When power is not enough, the device will continuously give an alarm, it will automatically power off if no charging; if don't turn it on, please check the power status, try to turn it on within 5 minutes to 10 minutes after it is charging if power is out of use.

#### ●Using TF expansion card

1、Connect the player with your PC, it will appear 2 Removable Disk, the first one is build-in flash memory, the other one is TF card. The second Removable Disk will not be opened if you did not plug a TF expansion card to the player.

2、

**Notice:**the player only supports TF kind of expansion card (maximum memory:32GB).

#### 2、Plug expansion card

To Plug: Insert the expansion card as the indication near the card slot. Once the player identifies the expansion card, Files stored in the card memory can be played.

To Unplug: Press the expansion card slightly and remove it.

#### ●Charging the battery

1、For best results, let it charge for about 7 to 8 hours during the first use, to confirm the full power and then use it.

2、Insert MINI 5IN USB port of the adaptor into the device USB port, the other end of the adaptor is inserted into DC port, then the device turn on automatically, the battery capacity

will read as the green scrolling icon  shows when charging, the charger should not be plugged out until power is fully charged. The indicator light becomes blue, the battery icon's green bar  will stop.

When the power exhausts out, wait for a minute and turn the device on.

Notice: 1. if you want the special charger with 5V--2A, contact the distributor in the local.  
2. Don't use 5V charger, or we are not responsible if the device is damaged to lead by the usage of 5V charger.

## 三. Technology specification

Hardware configuration	
Main Frequency	1.2GHz
CPU	Cortex-A9

Inner memory	1GB DDRIII
Screen	7.0inch IPS 1024×600
	Multi-touch Capacitive screen (5PIN touch)
Memory	8GB、16GB
WiFi	Wi-Fi 802.11b/g/n
Volume	D class Single Loudspeaker
Expansion card	Micro SD card, support maximum 32GB Micro SD (TF)
Battery	3000mAh/3.8V
Data port	High speed Micro USB 2.0 , support OTG function
<b>Operation system</b>	
Operation system	Google Android 4.04
<b>Camera</b>	
Front	0.3 Mega Pixels
Rear	2.0 Mega Pixels
<b>Function feature</b>	
Mobile memory	It can be used as movable hardware Disk
Audio	MP3、WMA、OGG、APE、FLAC、AAC、WAV
Video	Support H.264, VP8, RV, WMV, AVS, MPEG4 etc 1080P video output、YouTube、720P、HTML5 、Flash10.1
Picture	Support JPG、BMP、PNG etc.
Others	2D/3D graphic process unit , support OpenGL ES 2.0/1.1 and Open VG1.1
	View internet, Chat online , E-mail, E-Book, Explore
	Clock, Alarm clock, Calculator, Record
Audio mode	Normal, Popular, Rock, Classical, Bass, Jazz, User-defined
Language	Multi-language(optional)
Repeated mode	Single song once、single repeated、all once、demo
Record	Support microphone, support3GPP record format
<b>Technology specification</b>	
Battery usage time	Audio playing time: about 10 hours; video play time:about 2 hours
	Website view time:about 2 hours
信噪比	≥95db

**【Note】:**

The picture on the manual is only for reference. There is no notice if the specification, button operation and appearance are exchanged. Hope you can understand.

**FCC Statement:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
