

Operation Instruction of LED Touch Controller

- **Control Method**

The function of remote control

Name of key	Instruction	Remarks
ON/OFF	ON or OFF	
Pause	Pause or Continue	When in dynamic mode
Mode	Cycles through the different modes	10 modes in total.
Speed/Brightness +	Increases speed/ brightness	Speed for dynamic modes, Brightness for static modes.
Speed/Brightness -	decreases speed/ brightness	Speed for dynamic modes, Brightness for static modes.
Color Ring	Touch for desired color	

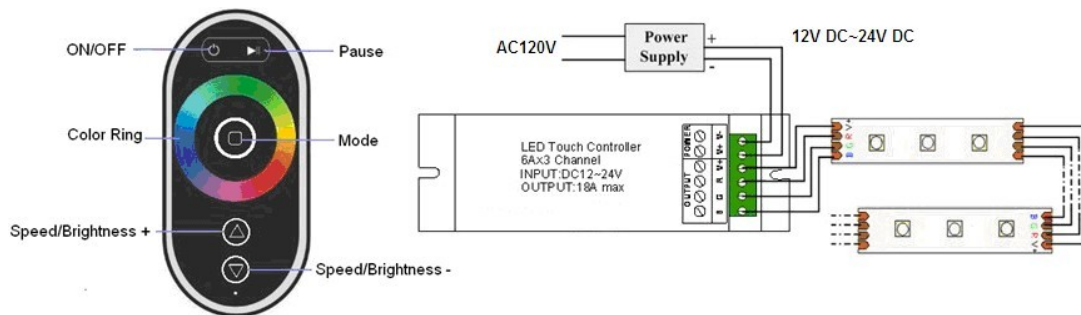

The effect of the “Mode” button

No	Patterns	Remarks
1	Static warm white	Brightness is adjustable, speed is unadjustable
2	Static cool white	
3	White	
4	Seven-color change	Speed is adjustable, brightness is unadjustable
5	Seven-color smooth	
6	Seven-color fade	
7	R/B crossfade	
8	B/G crossfade	
9	G/R cross fade	

dynamic = moving

static = still

- **Panel specification and connecting drawing as follows**

- **Warning: Supply voltage of this product is 12V DC~24V DC. Never connect to AC120V.**

● **FCC & IC Statement**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
