

### **Purpose of the Change**

To: ITS

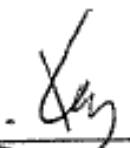

From: Giant Telecom Ltd.

We have changed baseband circuitry to add some functions due to the marketing reasons. The previous certified model (E30001B), FCC ID: RAQE30001BBS has been modified and the modifications is subject to permissive change. These models are identical in RF portion and antenna in the base and handset unit such that the modifications doesn't intend for change in maximum power, field strength ratings and operating frequency.

The only differences between the old and the new model are:

1. Answering machine function is added;
2. PCB is re-layout;

Regards,
