**Purpose of the Change letter**

\*\*\*\*\*  
OL3021 is our new model which be integrated OL3020( 5.8GHz analog phone with CID and InfoGlobe - a series of LED display) and a polyphonic circuit in handset for ringer.

The Base unit is identical to OL3020 including ALL hardware, software & mechanism. The RF module remains the same.

Basically the Handset unit is same as OL3020/5800, but the PCB layout has been changed. However, the RF module of unit is remained the same with OL5800, and all other design including electronic and electrical are identical. Therefore without any software & hardware circuit be changed and will not affect the EMC power or field strength.
