Purpose of the Change letter

The new OL3022 is to apply permissive change of OL3022 (*previous certified*). The relationship between old OL3022 model and the new one is same model number. The old one was added in beginning of OL3021 but it is never use in production & delivery. Now we want the new one to replace the previous one.

OL3022 is same with old OL3022 handset (without LCD, earpiece, speaker, polyphonic circuit, microphone & keyboard) and combined InfoGlobe. InfoGlobe is a series of LED display which display some user message or CID information.

The control PCB including software, electronic, electrical (except LCD, earpiece, speaker, polyphonic circuit, microphone & keyboard) is same as previous OL3022 handset main PCB. The RF module including electronic, electrical & PCB layout are completely identical to previous OL3022 RF module. (No any change in PCB, circuit & value of RF module.)

OL3022 is a standalone unit with an adaptor only (No base included in the package.) However, it associates with OL5805, OL5815, OL3021, OL6814, OL6818 & etc.

Name: Andrew Cheung

Signature:

A handwritten signature in black ink, appearing to read 'Andrew Cheung', is written over the 'Signature:' label.
