I have a few comments on the above referenced Application.

General Requirements

- 1) Is an agency letter available for this application?
- 2) It appears that some of the data may have been reported incorrectly on page 16. Please correct.
- 3) Since this device may be considered as a PC Peripheral, then a compliance information sheet should be included in the manual on the same page as the FCC statements (alternatively, this may be shipped with the product as a separate sheet). Please provide. This information should contain the following information regarding DoC compliance:

COMPLIANCE INFORMATION (47CFR 2.1077)

If a product is tested and authorized under a Declaration of Conformity, a compliance information statement shall be supplied with the product at the time of marketing or importation, containing the following information:

- (1) Identification of the product, i.e. name and model number. (NOTE THIS IS ALREADY IN THE MANUAL)
- (2) A statement similar to that contained in Section 15.19(a)(3) that the product complies with Part 15 of the regulations. (NOTE THIS IS ALREADY IN THE MANUAL)
- (3) The identification, by name, address and telephone number, of the responsible party. The responsible party is defined as either the manufacturer, or if the equipment is imported, the importer. The responsible party for a Declaration of Conformity must be located within the United States. (THIS IS MISSING ON PAGE 2).
- 4) The RF exposure statement in the users manual references 20 cm. Please note that 20 cm is not considered an applicable distance since PCMCIA cards positioned in the laptop are closer than this when positioned in the lap. Please correct the RF exposure information in the manual.
- 5) The SAR report provided is blank after the first 7 pages. Please provide again.
