ID: RCFDLK-9852RF, AN03T3197

Hi Mike,

I am very sorry. the below is required information.

#1 The FRN is 0009329582.

#2 Would you please adopt the test report submitted on 8/31/2003. In the report, we deleted

the logo accrediting institution. As to the fundamental frequency, after Vincent's review and

confirmation, it was changed back to 27.095MHz. It was the first time that CCS-Shenzhen did the

RF test and report.

#3 I just submitted the revised ID label.

Thank you for your review and attention.

Best Regards

Emily

>Question #1: Please provide FRN which was assigned to the applicant.

>

>Question #2: In your e-mail sent on 08/29, the fundamental frequency is
>changed from 27.095 MHz to 27.092 MHz in the test report. On 8/31/03, you
>sent another revised test report which indicates the fundamental frequency
>is changed back to 27.095MHz. The fundamental emission measurement has been
>changed twice. Please explain the fundamental frequency used during the
>investigation and confirm the fundamental frequency, provide revised test
>report as needed. Please note: based upon the block diagram submitted, the
>fundamental frequency is listed as 27.095MHz.

>

>Question #3: Proposed FCC ID label does not comply with section 2.925(a)(1)
>of FCC rules. "The FCC identifier shall be preceded by the term FCC ID in
>capital letters on a single line." In the proposed FCC ID label format,
>model name and FCC ID number are both on a single line. Please provide
>revised FCC ID label format.
