Hi Mike,

I am very sorry. the below is required information.

#1 The FRN is 0009329582.

#2 Would you please adopted the test report submitted on 8/31/2003. In the report, we deleted the logo accrediting institution. As to the fundamental frequency, after Vincent' review, it was changed back to 27.045MHz, not 27.495MHz. It was the first time that CCS-Shenzhen did the RF test and report.

Another, I just submitted the revised ID label.

Thank you for your review and attention.

Best Regards

Emily
