To Whom It May Concern:

We, Ixia, as the manufacturer of the IxWLAN SED declares that the single radio configuration is established by the firmware available only from the manufacturer. Even if a user installs a second radio module, the unit will only operate with the factory installed module and the user will be unable to activate the second module.

A handwritten signature in black ink, appearing to read 'Al Cummins', followed by a horizontal line.

Al Cummins
Sr. Compliance Engr
