RADIO CONTROL LANDROVER

CAUTION: ELECTRICALLY OPERATED PRODUCT:

Not recommended for children under 6 years of age. As with all electrical products, precautions should be observed during handling and use to reduce the risk of electric shock.

SPECIFICATIONS:

INPUT: 120V AC 60Hz 7W
OUTPUT: 12V DC 200mA

CAUTION:

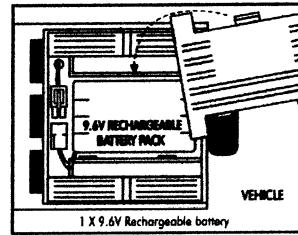

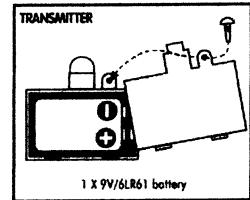

Adults Note: It is recommended that this toy be periodically examined for potential hazards and any potentially hazardous parts should be repaired or replaced.

9.6 VOLT BATTERY PACK

Before using the vehicle for the first time charge the battery pack for 12 hours as follows

- 1) Attach the battery pack to the charger using the jack connections.
- 2) Plug the charger into socket and switch on power.
- 3) Charge for 12 hours - do not overcharge.
- 4) Switch off power
- 5) Remove battery charger from socket.
- 6) Disconnect battery pack from charger.
- 7) Remove the rear part of the roof of the vehicle.
- 8) Fit the battery pack into the housing situated at the rear of the vehicle and attach to jack point.

For subsequent charges only charge for 6 to 8 hours - do not overcharge. Your vehicle will operate for 20-30 minutes after each charge.

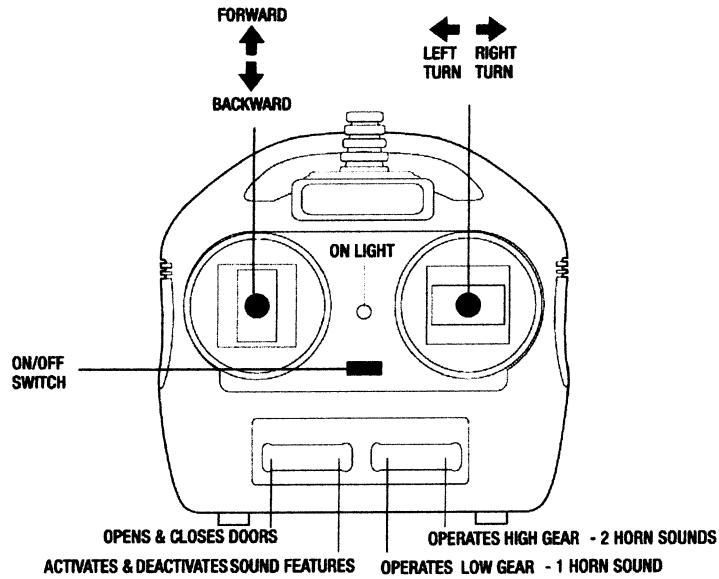

OPERATION OF VEHICLE

Switch on power underneath vehicle to operate. This will automatically operate the front and rear lights.

Switch off when not in use as the lights will drain the battery pack.

HAND CONTROLLER

Switch on power. The vehicle can now be operated using all its functions (see diagram below).
Switch off when not in use.

WARNINGS

- 1) Switch off the toy before removing battery pack.
- 2) Never throw batteries in a fire or attempt to open up its outer casing.
- 3) Batteries are harmful if swallowed, so keep away from young children.

Thank you for your purchase

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Modifications not authorized by the manufacturer may void users authority to operate this device
