

Nokia 3xxx, 8xxx adaptor

Nokia 5xxx, 6xxx, 7xxx adaptor

QUICK REFERENCE MANUAL

IMPORTANT INFORMATION ABOUT YOUR UNLEASH HEADSET

INITIAL CHARGING

1. Insert 4 "AA" batteries in the charging case
2. Remove headset and base from case
3. Reinsert headset and base
4. Give unit full charge (typically 4 hours)
5. Follow directions on instruction label

INSERTING UNLEASH INTO THE CASE

For easier insertion of both the base and headset insert the contact ends in first and then rotate them down into the case.

POWER OPTIMIZATION

If you notice your headset remains "active" for extended periods of time when no call is active then your phone model does not support voltage modulation of headsets. This condition can result in shorter standby times than expected. To improve the battery life of your unit, use the Manual Standby Function (see instruction label for directions) to manually place your Unleash headset into standby mode.

Please visit <http://www.reasonproducts.com/unleash> for warranty and other information.

To validate your warranty you must register your product within 30 days of purchase at <http://www.reasonproducts.com/unleash>

WARRANTY INFORMATION: Six-month Limited Warranty. Reason Products will repair or replace this product if, within six months from this date of purchase, due to a defect in materials, workmanship or functionality, it does not perform as specified. This warranty covers only repair or replacement of the product itself; it does not cover charges for labor and/or installation of the product. This warranty is extended to the original consumer purchaser only. In no event does this warranty extend to instances where the product is damaged through uses for which it was not intended, misuse, mishandling, removal and/or reinstallation, neglect, accident or tampering. In no event will Reason Products be liable for damages in excess of the purchase price. Some states do not permit the exclusion or limitation of incidental or consequential damages, therefore, sections of the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may have additional rights which may vary from state to state. This warranty is in lieu of any other warranty, express or implied, including, but not limited to, any warranty of merchantability or fitness for any particular purpose. Any representations or promises inconsistent with, or in addition to, this warranty are unauthorized and shall not be binding on Reason products. To exercise this warranty, return the product to your point of purchase.

FCC INFORMATION: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio TV technician for help.

You are cautioned that any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation. Privacy of communications may not be ensured when using this phone.

...doesn't freedom feel good™

- long-lasting power with portable charging case
- a secure connection
- clear, high quality sound
- freedom to move

Unleash™ Wireless Headset

untangle, unplug, unwind

unleash™

unleash™
untangle, unplug, unwind

unleash™

untangle, unplug, unwind

Finally, a wireless headset that's truly wireless – no cords, no bulky AC wall adaptors, no car chargers.

- Easy-to-use and comfortable
- Crystal clear sound with range up to 6 feet
- Totally secure connection, no bandwidth sharing
- Works with all standard 2.5 mm jack phones*
- Uses safe, low-power NFMI** technology

Best of all, there's no special programming required. Simply charge the headset and base unit in the portable case, plug the base unit into your phone, and go

Really, it's that simple. So go ahead, Unleash yourself.

* Adapter required for phones which do not use 3 pole, 2.5 mm jack. Adapters included for Nokia3xxx, 5xxx, 6xxx, 7xxx and 8xxx phones.

** Near Field Magnetic Induction (NFMI) Technology from AJURA Communications

Warranty: Six month warranty for workmanship defects upon registration of product. See inside for details.
