

**S.No.:** Consecutive serial number

**Manufactured:** Actual Month / Year of production order finish

**Text type:** Signa Column Bold, Signa Column Book

**Letters, symbols:** Black, abrasion-proof and UV radiation resistant

**Bar code 128 (EN 799)**

Environmental Specs (for Basic foil, printing and UV foil):  
Resistance against abrasion  
Resistance against UV  
Temperature Resistance: -40°C up to +150°C  
Suitable for rough and outdoor use

|                                                                                                                                                                                                |             |      |                     |                   |                |                                                                                       |       |          |       |    |   |            |  |
