Subject: Request for withholding from public disclosure schematics, block diagrams, assembly drawings, internal photographs, operational specification, bill of materials and/or theory of operation.

RE FCC ID: RFM-OWS2430-90

Gentlemen,

Strix Systems, Inc., would like to request that all schematics, block diagrams, assembly drawings, internal photographs, operational specification, bill of materials and/or theory of operation submitted with our application for certification be withheld from public disclosure per Section 0.459 of the FCC rules.

This request is made under the provisions of Section 0.457(d) of the Commissions rules, and Section 552(b)(4) of the Freedom of Information Act. These sections authorize the withholding from public inspection those materials which would be privileged as a matter of law if retained by the person submitting them, and materials which would not customarily be released to the public by that person.

The OWS2430-90 is a professionally installed product. This product is not marketed to, made available for purchase by, or accessible to, the general public. We therefore request that the internal photographs be held as confidential.

If you have any questions or need any additional information, please feel free to call me at (818) 251-1000.

Sincerely,

A handwritten signature in black ink that reads 'Steve Coffelt'.

Steve Coffelt
Director, Product Management
