Dear Jenny,

Review of this application is complete. Please reply to the following items.

Q1: To accomplish this C2PC, please submit a copy of the host product user manual showing the RF exposure information provided to the user.

Q2: The internal photos submitted appear to have changes and additional components different from the previous applications. Please provide a revised C2PC letter describing the changes on the board and confirm that no changes have been made which are prohibited by 2.1043.

Q3: Please provide revised schematic and block diagram to be consistent with the revisions in Q2, or provide a statement in the C2PC letter confirming that the exhibits have not changed.

Q4: If any submitted exhibits require confidentiality, please submit a confidentiality request letter.

Q5: The previous applications under this FCCID were Modular Type: Single Modular. In this application, the modular letter has been submitted requesting Modular Type: Limited Single Modular. Please confirm that this is correct.

Q6: Please submit an antenna exhibit for the antenna used in this filing.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Dear Jenny,

Thank you for your reply. The answers for Q1, Q4, Q5, Q6 are acceptable. For Q2 and Q3 I checked again and see that the change occurred between the 20080715 and 20090804 C2PC applications. I was looking at 20080715 internal photos, so please disregard Q2 and Q3.

The review is complete and I will forward for certification shortly.
