

9. Antenna Information

(a) Compliance With 15.203

The MLOG antenna is a printed circuit antenna that is an integral part of the electronics that cannot be removed or modified by the user.

(b) Compliance With EIRP Limit

The printed circuit antenna has no active gain element and no transmission gain is possible.

(c) List of Antennas

An integral printed circuit antenna is the only antenna option. This antenna has a nominal gain of 0 dBi in the orientation of maximum transmitted power.
