

8. Antenna Information

(a) Compliance With 15.203

The MLOG antenna is a helical monopole antenna that is permanently attached and an integral part of the electronics that cannot be removed or modified by the user.

(b) Compliance With EIRP Limit

The permanently attached integral antenna has no active gain element and no transmission gain is possible.

(c) List of Antennas

An integral antenna is the only antenna option. This antenna has a nominal gain of 0 dBi in the orientation of maximum transmitted power.
