

Mike Kuo

---

Hi Mike,

The output power measurement is re-done and the test report is revised and attached.

Thank you for your efforts.

Best regard,  
Ting

Notice\_content

-----

Question #1: While doing the RF conducted output power tests, RBW=30kHz was used which is less than 20dB. Please redo output power measurement and submit the test plots.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
