

Cover Letter

August 15, 2007

Gentlemen,

Please find below our responses to your Inquiry Tracking Number ATCB005165. If you require more information kindly let us know at your first available opportunity.

- 1) Please provide references to RSS210 in the test report.
[This revised report has been submittalled.](#)
- 2) The User Guide does not include the required IC statement for RSS210. Please submit a User Guide that includes the appropriate statement.
[The new User Guide has been submittalled.](#)
- 3) Please verify and indicate in the report that the device's tuning controls were manually adjusted to assure the appropriate tuning range (87.1 to 107.9 MHz).
[The tuning is done digitally using up/down push buttons. The end user can only select 88.1 to 107.9 MHz](#)
- 4) Please verify that the bandwidth was tested with the maximum audio input.
[The device was tested with a maximum audio signal from the IPOD.](#)
- 5) Please verify that the audio input was a typical audio file rather than a fixed frequency (i.e. 1000 Hz tone).
[The device was tested with a normal signal \(MP3\) from the IPOD. There are no additional audio inputs.](#)
- 6) Please verify that standard confidentiality is not required for this application.
[The confidentiality is not required for this application.](#)

Best Regards,

(Official officer of HTW)
