RE: DECLARATION OF ANTENNA
FCC ID: RKS-PPT8866

The PPT8866-R3BZ00WW and PPT8866-R3BZ10WW (antenna type, internal double static c-coupling diversity antenna) is connected to the main PCB.

The antenna cannot be removed or replaced by user without taking the whole unit apart, and removing the printed circuits boards from the housing. In the course of doing that, it will void the service warranty, and might damage the unit if not careful.

The antenna of PPT8866-R3BZ00WW and PPT8866-R3BZ10WW (antenna type, internal double static c-coupling diversity antenna) antenna has the gain of -7 dBi.

Yours sincerely,

TAN KOK SHIUNG
QUALITY ENGINEERING MANAGER
